*Dated Bangalore,* 4th April 1962.

DEPUTY SECRETARY TO GOVT. NO. 1113 6-APR 1962 AGRICULTURE & FOREST DEPTT.

1) While I was proceeding from Huliyurdurga to Kodavathi, Kunigal Taluk, on 1st April 1962, the villagers of Kenkeri village represented that consequent upon the renovation of Kenkeri tank, their lands have been completely submerged by water rendering them landless and resulting in their means of livelihood being affected seriously. They further represented that about 100 acres of forest land situated nearby their village belonging to Kamplapura Forests may be ordered to be released to them by way of compensation. On their representation, I inspected the land. This land is uneven and appears to be unfit for forest use. There are no trees and shrubs. I assured the villagers that in view of their pitiable condition, the question of releasing that bit of land from the Kamplapura Forest area would be considered. The Chief Conservator of Forests may be asked to examine the question of releasing the above land in the light of the above facts.

17) The papers relate to the release of Forest land in Kenkere Village included in Kamalapur State Forest, Kunigal Taluk, Tumkur District. The latest report of the Chief Conservator of Forests is at page 23 C.F. and copies of the reports made by the Conservator of Forests, Bellary and the Divisional Forest Officer, Tumkur and that of the Range Forest Officer, Kunigal Range, have also been obtained for purposes of knowing the correct position and are placed for kind perusal. On the orders of the Minister, issued so long back as 29.5.1962, on a copy of the report addressed by the Divisional Forest Officer, Tumkur to the Conservator of Forests, Bellary, the Chief Conservator of Forests had been asked to send up proposals for the release of the above area and the present report of the Chief Conservator of Forests at page 23 C.F. is with reference to the same. The Chief Conservator of Forests has stated that even though the Divisional Forest Officer, Tumkur, after inspecting the area, has recommended the release of 150 acres of land in Kamalapur State Forest, he is not in favour of releasing this area in view of the low percentage of forest in this District and in view of the forest boundary becoming awkward if this release is made. But in view of the instructions already contained, he has left the matter to Government for the issue of the orders as they deem fit. According to the report of the Divisional Forest Officer, the soil of the land is suitable for cultivation and there is no valuable growth except lantana. Further there are no Gomal or waste lands adjacent to the village. He has, therefore, suggested

Note.—Contn. Sheet

that the area may be released as marked in the Sketch Map in red ink. It is seen from the observations of the Minister when he inspected this area vide his Minute, dated 4.4.1962, that consequent on the renovation of Kenkere Tank, the lands which were in possession of the villagers of Kenkeri, have been completely submerged in water rendering them landless and resulting in their means of livelihood being affected seriously. Since this land is uneven it appears to be unfit for forest purposes.

18

In these circumstances, we may agree to the release of 150 acres of land in this area for the benefit of the Kenkere Villagers whose lands have been submerged on account of the renovation of Kenkere Tank.

With reference to above, I write to submit the following reports long with the copy of Minute of the Hon'ble Minister of Forests tour dated 4-4-1962 received in above letter as follows :-

In this connection, I wish to state that 25 acres of trench mound plantations was raised during 1961, closed to the village site. The villagers are hostile and protection was difficult and as such there is heavy failures. There is heavy growth of Lantana and Kenjige also. Considering the difficulties of the ryots who lost their lands by submersion due to construction of Muthrayankere Tank, I am of opinion that about (150) acres of land can be granted as an in forest settlement, with the following conditions.

1) The land will be ~~sown~~ under cultivation by a co-operative society to be formed by the affected people.

2) Land is not ~~cultivable~~. Alienable

3) Contour trenches should be dugged at interval of 132' and sowing & planting done as per the direction of the Forest Department.

Sub:- Release of Forest land in Kankare Village included in Kamalapura State Forest, Kunigal Taluk, Tumkur District.

Ref:- Your letters No. AFD 2760/62 dated 18-4-1962 and AFD 4229/62 dated 22-6-1962 and memo No. AFD 2741/62 dated 17-4-1962.

---

The Divisional Forest Officer Tumkur after inspecting the area under reference has recommended the release of 150 acres of land in Kamalapura State Forest as indicated in the sketch enclosed herewith for being granted to the villagers of Kankare. It is reported that the area contains only lanta, but suitable for afforestation purpose. As can be seen from the sketch, the release of the area results in awkward boundary of the forest apart from reducing the area under forest which is already low in Tumkur District. Further this forest area is reported to be serving as a reserve for fodder to the cattle of the villagers. In the circumstances the Conservator of Forests, Bellary Circle is not in favour of releasing the area under reference. But in view of the instructions issued in Government letter No. AFD 4229/62 dated 22-6-62 orders as deemed fit may please be issued.

I enclose herewith the original letter No. 6262/62-63 dated 22-11-62 of the Divisional Forest Officer, Tumkur together with the copy of the Range Forest Officer's report on the points raised by you.

In reply to point 3 of your letter No. B3-21-GFL-124/62-63 dated 5-10-62, I am of the opinion that this land if released, will not only reduce seriously the area of this forest but also render the boundary awkward. Therefore, I am not in favour of releasing this forest to any extent as it is serving at present the entire village as a reserve for fodder to their cattle and small timber.

In reply to the above, I write to furnish the following particulars as called for in the above reference by the Chief Conservator of Forests, Bangalore for kind perusal.

The Range Forest Officer, Kunigal has reported that the area applied by the villagers may be released out of Kamapa Kamalapur State Forest. The area is consisting of fully lantana growth and further no Gomal or Waste Lands are available adjecent to the village. If Government wish to grant the land to the villagers either as per this office report No. DAR 13/62-63 dated 30-5-62 or to disafforest the area from the forest may be considered.

With reference to the above, I beg to report that I have parambulated in the Kampalpura State Forest and inspected the area where Kenkere villagers are asking land to be released for cultivation and the same has been marked in the sketch map in red ink and state as follows:-

1. The soil of the land is suitable for cultivation and there is no valuable growth except lantana.

2. The area is suitable for afforestation works.

3. The area may be released as marked in the sketch map in red ink.

4. A sketch map is enclosed marking all the plantation areas demarcation like and other symbals.

5. There is no any Gomal or West land round about the Kamplapura State Forest.
